

A GOOD TONIC

Munyon's Paw-Paw, as a Remedy for the Stomach, Nerves and Blood, Has no Equal.

With the coming of Spring one needs to fortify themselves against the climatic conditions which are so fruitful of sickness and a generally run-down condition.

Unsettled weather means unsettled health, which if not looked after may develop into troublesome and dangerous spring fever, grippe, malaria, typhoid, etc.

My Paw-Paw Tonic is a power of strength and safety at such a season. I know it will put the stomach in order and keep it in order for doing its work.

I know it will increase the appetite and permit you to eat the nourishing foods needed to maintain and increase the strength.

I know it will purify the blood and drive out Catarrh, Rheumatism and other disorders due to impoverished or tainted blood.—MUNYON.

Munyon's Paw-Paw Tonic is just the Spring medicine you need, as those who testify who have been made well and strong through its use. Read, for instance,

WHAT COL. W. J. WALLACE SAYS
"The War of the Rebellion, in which I was at the front from '61 to '65, left me with impaired health and a broken-down nervous system. I tried doctors, medicines and change of scene and climate, but all to no purpose. Hearing what your Paw-Paw did for others I thought I would try it, and did so, also using your Paw-Paw Pills, and I tell you the results were marvelous when you consider that I am 70 years old. I have taken three bottles of the Paw-Paw and one of the pills, and I almost feel that I have found the fountain of perpetual youth. I therefore urge every old soldier or other person who has stomach or nerve trouble to get Paw-Paw, as I know it will benefit them immensely." 1432 S. 4th St., Phila.

TWO DIVORCE SUITS FILED.

A Husband and a Wife Charge Desertion.

Grace Todd filed suit for divorce in the Circuit Court yesterday against L. M. Todd, charging desertion and failure to support. They were married June 28, 1902, and separated October 5, 1903. She asks for the restoration of her maiden name, Young.

John R. Fisher avers that his wife, Grace, deserted him January 14, 1902. They were married December 1, 1901.

WOLVES HELD AT BAY.

A GREEDY PACK OF WILDS SURROUND A CLERGYMAN'S WIFE.

Through the Arrival of Timely Aid She Escapes From the Terrors of a Prolonged Siege.

The Rev. W. A. Dutton, of Girard, Crawford county, Kansas, tells the following story of a harrowing experience. Some cotton has been planted in all portions of the State. In some of the southern portions half of the crop has been planted and the early planting is up and looking well. In the southern portion, planting has been delayed on account of the dry condition of the ground. The planting of early corn has been completed and the crop is in good condition. A few peach buds were killed in the extreme northern portion of the State by the low temperature of the south, but otherwise the fruit crop has suffered no damage, and is in excellent condition. Strawberries are making a large yield in the east region.

Bishop Galloway to Dedicate Church.
Columbia, Mo., March 29.—The dedication services of the new Methodist Episcopal Church will be conducted May 15. The building will be completed by that time. A letter was received to-day from Bishop B. C. Galloway of Jackson, Miss., accepting an invitation to conduct the dedication exercises.

Girl Drinks Carbolic Acid.
Edna Hackett, 17 years old, was taken to the City Hospital at 9 o'clock last night in a dying condition, having swallowed carbolic acid at her room, No. 108 Carr street. William Carroll was asleep in the house when the young woman took the drug. He was awakened by her moans. Carroll is held by the police.

Tries to Kill His Wife.
Henry C. Watson, a negro, residing at No. 1313 Poplar street, became suddenly insane last night, and after making an unsuccessful attempt to kill his wife with a hatchet, terrorized the neighborhood. He was arrested, and with difficulty taken to the City Hospital, where he is held for observation.

ALTMAN BODIES REMAIN AT MORGUE

Coroner Receives No Claim for Victims of the Double Suicide.

At the morgue unclaimed lie the bodies of John B. and Juliana Altman, whose double suicide was discovered Monday morning when the police broke into their home at No. 426 Chouteau avenue.

In a will made last Tuesday the husband expressed the wish that his body should be cremated, the expense to be borne by his estate. Attorney Louis Meyer, appointed executor of this will, so far as the Coroner or morgue superintendent knew last night, had made no arrangements to carry out the provision of the will as to the cremation and scattering of the ashes as desired by Altman.

The bodies will be held until Mr. Meyer has made the arrangements for the funeral. Doctor W. H. Freudenstein, Chief Deputy Coroner, yesterday held an inquest, and decided that both Mr. and Mrs. Altman committed suicide. The policeman who broke into the house and found the couple in the gas-filled room, which they had taken the trouble to seal with a heavy padlock, testified that he saw no signs of life when he entered the room, and that the gas could not enter, and Attorney Meyer said the only witnesses.

Morgue Superintendent Gowan also is keeping the dead canary bird which was found on the breast of Mrs. Altman when her dress was opened at the morgue. It probably will be buried with her.

The opening of Altman's will, which was found yesterday, read:

EXTRACT FROM WILL.
I, John B. Altman, of the city of St. Louis and state of Missouri, being of sound mind and memory, and having been duly advised by me, my wife, Juliana, and my children, Paul and Clara, and I declare this to be my last will and testament, and I hereby revoke any and all wills by me at any time made.

The will then makes bequests to Joseph Diebold of Vienna, Austria; Mrs. Altman's brother, and to Mrs. Theresa Seider, Wien, Austria.

His next expresses the wish that his body be cremated and his ashes scattered over the soil from which he originated, and desires that no mourning be observed at his funeral.

Examination of the papers of Altman shows an invoice drawn on the day of his death of his liabilities and assets. Among them being listed are: \$2,500 in bonds; \$1,000 in cash; \$1,000 in real estate; \$1,000 in stock; \$1,000 in other property.

It is stated that the assets are itemized at the figure represented by their cost to the holder, and that some of them are practical impossibilities which had afterwards been scratched out which was \$125.00 due to a play.

Altman's last will was found yesterday that he had once represented Altman in a legal matter, but it was eight years ago and he had forgotten the matter. Mr. Folk said he had not sent a bill to Altman and had not seen him for several years, and a few weeks ago.

POOL AND BILLIARDS.
WHITE DEFEATS MCGOWAN.
His Victory Gives Him Strong Chance to Win the Diamond Medal.

Claude White had comparatively little trouble defeating Thomas McGowan in the continuous pool tournament game at the Broadway last night, winning by a score of 100 to 60.

White displayed unusual skill on difficult shots and several of his combinations drew the applause of the spectators. McGowan relied on the safety game, but found White as wily as himself at this style of play.

White won the bag and began by pocketing twelve balls. McGowan only made three points on his initial effort.

In the sixth inning White made the entire frame of fifteen balls. McGowan's best effort was a run of eleven in the second inning.

White is still one of the leaders in the tournament, and his showing has led many of his followers to "root" him as the winner of the State championship and the diamond medal.

McGowan's game practically puts him out of the race for first place. Balchaser, considered one of the best players in the State, are scheduled to meet to-night.

Hoffman told his string of 25 points while Davenport was running up 19 in the second inning. Hoffman displayed much skill in the angle shots and his victory was of the clean-cut variety. His high run netted him two points. Davenport made a high run of two. Hook and Page will play to-night. Score of last night's game:

Pullman Instructs Clergymen.
Philadelphia, March 29.—President Pullman of the National League of Baseball Clubs, met the staff of clergymen here to-day and discussed the subject of the clergyman's duty in the event of a uniform interpretation. The subject was discussed by Rev. J. M. McKim and James Johnston. A fifth man is to be selected.

WANTS MUSIC IN CITY PARKS.
Increase of \$500 Asked for by Commissioner Robert Anll.

Besides the crash and din of bands upon the World's Fair grounds next summer, the City Park Department has asked for an appropriation increased sufficiently to allow a few more concerts in other parts of the city.

Park Commissioner Anll has asked for \$500 to be spent on music. The amount asked last year by \$500. Carr Park is to receive its share of music this year. A pretty fair stand is now in course of erection there.

"It's in the Taste"

The goodness of cooking is all in the taste—the rich, savory, appetizing flavors of foods. Good cooking means saving the flavors—"keeping the good in"—and there's only one way to do it. You must have exactly the right degree of heat—at exactly the right time—and the right place.

And there's only one way to get that—YOU MUST COOK WITH GAS.

You can't regulate the heat of a coal stove. It gets too hot—or not hot enough—or hot at the wrong time. Too much "luck" about it.

With a gas range it's entirely different. The right heat is a scientific certainty—and likewise a good meal. The gas flame is instantly hot. It sears the surface of foods and imprisons the rich flavors and nutritious juices before they are cooked away.

There's the secret of the rich, full-flavored, appetizing goodness of gas-cooked meals.

GRATEFUL PRAISE

LAS VEGAS HOT SPRINGS, NEW MEX., June 2, 1903.
A neglected cold caused cessation of the menses and I grew worse each day. My strength, which had never been too robust, left me altogether and I was only too glad to do anything which would bring back my health. I suffered misery and torture each month and no longer had any desire to live. But soon after taking Wine of Cardui my spirits rose as I could feel my strength returning day by day. The menses soon became regular and in four months time I was as well and strong as any one could wish to be. I am full of praise and thankfulness for what Wine of Cardui has done for me.

RELIEF FOR YOU.
Can you read Miss Townsend's letter without appreciating the importance of keeping the natural functions in a healthy and natural state? Can you read what she writes and not be convinced that Wine of Cardui is a certain cure for all menstrual disorders and all the troubles they cause? Can you consistently tell yourself that Wine of Cardui is a medicine that will not cure you? Will you not go to your druggist today and buy a bottle of Wine of Cardui?
